Purely Green. Truly Sustainable.

نقيّ أخضر. مستدامٌ حقاً.

Who We Are

Archer Industries is a pioneering manufacturer of 100% bio-compostable packaging solutions, specializing in PLA preforms, bottles, and containers. Based in Dubai Industrial City, we are committed to supporting brands across the UAE and beyond in achieving their sustainability goals. By combining cutting-edge technology, certified quality, and eco-friendly innovation, we provide packaging that is safe, scalable, and environmentally responsible.

Our Mission

Our mission is to revolutionize the packaging industry by offering sustainable, biodegradable, and food-safe alternatives to conventional plastics. We are dedicated to helping businesses reduce their environmental footprint while ensuring product safety, affordability, and consistent quality.

Our Vision

Our vision is to be recognized as a global leader in sustainable packaging, driving the shift towards a circular economy where packaging no longer harms the environment. We aim to contribute to a world where innovation and responsibility work hand in hand to create a cleaner, healthier, and more sustainable future for generations to come.

Our Bio-PLA water bottle project offers a 100% bio-compostable alternative to plastic bottles.

الحوية بديلاً قابلاً للتحلل PLA يوفر مشروعنا لزجاجات المياه المصنوعة من مادة
الحيوي بالكامل في التسميد عن الزجاجات البلاستيكية.

Our Products

We specialize in customizable, high-performance, and eco-friendly packaging solutions for food, beverages, FMCG, and specialty industries.

Bio-PLA Preforms (28mm PCO 1881)

- 250 ml – AED 0.45+
- 500 ml – AED 0.65+
- 1.5 L – AED 1.10+

Compostable Bottles

- Available in 250 ml, 500 ml, 1.5 L
- Strong, durable, food-safe, and fully bio-compostable

Research & Development

Bio Compostable Containers

- For food service, FMCG, and retail packaging
- Heat-resistant, leak-proof, and compost-friendly

Custom Eco-Packaging

- Bottles, jars, containers, and specialty packaging
- Designed to meet brand identity and sustainability goals

All our products meet global standards for safety, performance, and bio-compostability

جميع منتجاتنا تلبى المعايير العالمية للسلامة والأداء وقابلية التحلل في التسميد

Why Choose Archer Industries?

100% Bio-compostable & Food-Safe – Safe for consumers, safe for the planet

Certified & Locally Manufactured in UAE – Reducing supply chain costs & ensuring compliance

Scalable, Consistent Quality – From startups to global enterprises

Trusted by Leading Brands – Partnering with businesses that value sustainability

Our Impact

Every ton of PLA (Polylactic Acid) we produce helps eliminate traditional plastic waste and its devastating effects:

- **Reduces Carbon Emissions** – Lower greenhouse gases during production & disposal
- **Cuts Plastic Waste** – Prevents single-use plastic pollution in landfills & oceans
- **Prevents Microplastic Pollution** – Protects marine life and food chains
- **Supports UAE's Sustainability Goals** – In line with Dubai's Vision 2030 and the UAE's commitment to a circular economy

Partnering with Archer Industries helps build a cleaner, healthier, sustainable future.

التعاون مع آرثرز للصناعات يساهم في بناء مستقبل أنظف وأكثر صحة واستدامة.

Approvals & Compliance
